ARE STILL SAFE

MRS. CURTIS ALEXANDER WRITES FROM SAN LUIS POTOSI.

USED A CROOKED STICK

Eight Peons Were Also Used in Operation of Corn Planting—$1 a Pound for Butter.

Postmaster and Mrs. S. R. Beech have just received twe letters from their daughter, Mrs. Curtis Alexander of San Luis Potosi, Mexico, one dated June 28 and the other July 6, assuring them of the safety of herself and family in the renewed troubles in the revolution in that country.

Virden Alexander, the son of Mr. and Mrs. Alexander, went to San Salvador in June and is many miles away from the revolution. Though but a little past 21 years of age he is an expert mining assayist. He was employed at Tampico when the revolutionists began their work there, and he left for Mexico City, where he found 250 mining assayers ready to leave for the United States. Wishing to continue in his work, believing there would not be a very good chance for him to return in company with 250 other men in his work, and all wanting employment, he accepted an offer at Mexico City from the manager of a mining company at La Union, San Salvador, at $260 per month and board. He left at once, sailing from Salina Cruz on an eight-day water trip to the southwestern coast of San Salvador. The mine where he is employed is forty-five miles up in the mountains from La Union, the landing place.

At San Luis Potosi, where Mr. and Mrs. Alexander are stationed, the German company that owns the mine of which he is a member as well as assayer, has used every precaution for the safety of those in charge. An immense stockade surrounds the property that contains several hundred acres, and everyone within is trained and ready for any emergency the present upheaval might bring.

The manager of the company and his two sisters left at the beginning of the summer for a visit to home folks in Germany. They asked Mrs. Alexander to oversee some things for them, the planting of an acre of corn, which she says she did "with eight peons and a crooked stick," also their cows and chickens, which she also does with the aid of another "battalion or so" of peons. She is about the busiest woman in Mexico, she says, and enjoys the novelty of the business, for she always did just love to boss folks. She gets $1 a pound for butter and a price accordingly for eggs. She is too busy to be afraid of the revolution, and so far has had nothing to really make her afraid. A few extracts from her letter reads:

San Luis Potosi, Mexico, June 28, 1913.—We are all well and doing finely. A little town just a little way from here was taken by the rebels the other evening. They killed the president of the town, robbed the houses and then set fire to them. It is certainly a big wonder they don't come and try to take us. We get to expecting it every few nights. We are well prepared for them, though, and it may be they know it.

* * *

The other day the consul had posted up a notice that the United States would pay any American's fare from Vera Cruz to Galveston or New York who was not able to get out of the country. Dr. Wiley, the pure food man, also chartered a boat and advertised to take any Americans out of the country, and the Red Cross society has already taken one boat load and will take another.

Everyone is wondering, "Are the blue jackets coming?" It is the only acknowledged way to ever settle this country. I think all good Mexicans are praying for it to happen. Everyone in business is going broke and all are mighty tired of these revolutions, one on top of the other.

* * *

The other day at Lampasas, a town a little way from Laredo, a funny thing happened, and it is a very fine illustration of the war here. One of the big generals was there, Telez his name is, and he heard that the rebels were coming, so he went out north to meet them. Some friends of the rebels told them the federals had gone north, so the rebels came into the town and got all comfortably fixed for the night when they were told that the federals were returning, and where the rebels could find and take their cannons. Then some one went to tell the federals that the rebels were in the plaza, and also informed them where the rebels' cannons were. The rebels went one way, the federals the other, each took the others' cannon, returned to their camps, not a man killed, not a shot fired.

Then the rebels were notified that the federals were very strong. They got scared and started quickly to the south. Then the federals were notified that the rebels were very strong. They didn't stop for anything, but arrived by ones and twos, or as they could, as if they had been shot out of a cannon in Laredo.

After both outfits had gone the people of Lampases went out and gathered all the food, clothes, guns and things that had been left. That, I guess, was a battle!

Don't worry about us. We are perfectly safe, and have all the fruit, vegetables, and everything we need.

* * *

July 6, 1913. Everything here is getting worse all the time, in the way of government, and no one thinks Huerta will last very long. The road from here to Tampico is blown up by the rebels. They dumped three train loads of soldiers over a precipice and the road has not been fixed since. But don't worry about us. We are perfectly safe. Should a time come when we are not safe we will stay in the house or walk out, or get out some way. Everything is quiet here and we are not afraid.

RETURNED FROM AUTO TRIP.

F. C. Conrad and His Family Had Great Time and Traveled Over 3,000 Miles in Car.

After a seven weeks auto tour of Wyoming and Colorado, Mr. and Mrs. F. C. Conrad and Miss Nelle Conrad drove into Maryville at 3 o'clock Friday afternoon. They made the last stage of the return trip from twelve miles the other side of Omaha, starting between seven and eight o'clock.

The complete trip covered about 3,000 miles, Mr. Conrad said this morning. On the way out, they struck mud at Fremont, Nebraska, and had bad roads all the way to North Platte. It rained every day on the trip out, but the return journey was made under ideal conditions. They stayed three weeks in Denver, where they met many old acquaintances, and then went to Colorado Springs for twelve days. They took side trips nearly every day to the different places of interest near there.

Mr. Conrad also said that they had no trouble with the car. Even the trips up the canyons caused no tire trouble. The only difficulty whatever was with the boiling of the water in the radiator. Fresh water had to be put into it every mile, but as the creek was always at hand this caused no great inconvenience.

The return trip from Colorado Springs took only five days. They left that place last Sunday, and stopped one day at Pine Bluff. It took $13 worth of gasoline to run the car from Colorado Springs to Maryville.

SUES FOR MAINTENANCE.

Lucinda Henderson of this City Brings Suit Against James Henderson.

A suit was filed Saturday morning in Circuit Clerk Rathbun's office by Mytton & Parkinson of St. Joseph for Lucinda Henderson of this city against James Henderson. The petition states that they were married in Illinois over forty years ago and shortly after that time moved to Missouri in Atchison county. About December, 1909, the petition says that the defendant abandoned the plaintiff without just cause.

The suit prays for support and maintenance for the plaintiff as she is unable to make her living as she is 60 years old. The defendant, according to the petition, earns good wages and also draws a pension of $20 a month.

WAS THE BIGGEST CAR.

One Sent Out Friday by Leet & Cook Contained 1,824 Bushels of Wheat.

The biggest car of wheat ever sent out of Maryville was shipped Friday by Leet & Cook, grain dealers of this city. The car contained 1,824 bushels of wheat. An average car contains about 1,200 bushels of wheat.

Maryville Band to Maitland.

The Maryville band, T. B. Maulding director, will furnish the music for the Maitland fair, which will be held August 18 to 22. The eating house concession of the fair has been let to Binter & Son, also of this city.

FRESH AIR PARTY

EIGHT KANSAS CITY CHILDREN GUESTS OF EPWORTH LEAGUE.

FOUR OUT IN COUNTRY

Party Equally Divided Between Town and Country Homes—A Chance For Practical Charity.

Eight of Kansas City's little folk have by this time had one full day of play on the pleasant lawns and beautiful farms of Maryville and vicinity. These children are the little waifs brought here from the Swope settlement by the Epworth League of the First Methodist church. After a week of delay they arrived at 8:30 Friday night, and were immediately taken to the homes where they will spend their ten days' vacation.

The four boys and four girls who make up this "fresh air" party range from 5 to 12 years of age. They are equally divided between town and country. In town there are two girls at the home of Mrs. Mary Hook, one at the home of L. L. Maier and one boy at the home of Walter Mutz. Three boys and one girl are spending their vacation in the country. The girl is at the W. L. Ruddle farm, one boy at the J. V. Embree farm and the other two boys and the farm of William Hosher.

The idea of bringing a number of the city's poor children here for a week or two of play in the fresh air and sunshine was suggested to the members of the Epworth League of the First Methodist church here at the district convention earlier in the summer. This league decided at once to carry out the suggestion as the best way in which they could use their money. The announcement, with a call for homes, was made in the church bulletin Sunday, July 13. The next Wednesday Miss Izora Mutz wrote to Miss Mary Andrews, superintendent of the Swope settlement in Kansas City, asking her to send the children to Maryville the following Monday, July 21. Miss Andrews was out of the city, and the letters were forwarded to her, causing the delay in the arrival of the children here.

This is the first fresh air campaign ever inaugurated in Maryville, and the Epworth League should be commended for it. It is too good a cause to let die with one trial, and now that it is started it should be continued year after year. If the people of Maryville could have seen how neat and clean and happy the little folk were when they stepped from the train last night there would have been many homes opened to them. Will not more people take an interest in this movement and make it a larger one next year?

Visited in Hopkins.

Mrs. Vern Wray spent Saturday afternoon in Hopkins, the guest of Mr. Wray's sister, Mrs. Ed Miller.

BINGHAMTON (N. Y.) FIRE.

Latest Estimate Places The Number of Dead at Sixty-eight, Mostly Girls.

© by American Press Association.

According to the best figures obtainable, at least sixty-eight persons died in or as a result of the burning of the factory of the Binghamton Clothing company. The exact number may never be known, as many of the bodies were entirely consumed and the list of employees was destroyed. The picture shows the factory ablaze.

10 WILL GRADUATE

THE PIRATES WON PENNANT.

The Normal Base Ball League Schedule Was Completed Friday—the Cubs Second.

The base ball league of the Normal finished its schedule Friday and the Priates team finished first, having won 8 games and lost 4. "Shylock" Wilson was the captain of this team. The Cubs came second, having won 7 and lost 5, with Simmons as captain. The Giants under Chris, were next with 5 won and 6 lost. The Athletics under Ham brought up the rear end of the procession, having won 3 and lost 9. The league games were very interesting and were enjoyed by the Normal students.

Next week a series of three games will be played. The pick of the Pirates and the pick of the Athletics will play the pick of the Cubs and Giants. Games will be played on Monday, Wednesday and Friday afternoons. The pick of all the teams will play the Guilford Stars at Barnard on the first day of the Barnard picnic on August 7.

BACK FROM AUTO TRIP.

S. H. Kemp and His Party Returned Friday From a Week's Trip in Car to Northern Illinois.

Mr. and Mrs. S. H. Kemp, Harold Kemp, Mr. and Mrs. G. R. Epperson, and Mrs. Patrick of Pacific Grove, Cal., arrived in Maryville Friday evening at 5:30 o'clock from a week's trip in Mr Kemp's Overland to various points in Northern Illinois. Mr. Epperson, who is 78 years old and in quite feeble health, came in as fresh from the journey as did his young grandson, Harold Kemp.

On going Mr Kemp took the Waubaunsie trail from Conway, Ia., which is the one on the auto trail from New York to San Francisco, and on returning came by the Blue Grass road between Burlington and Omaha.

They started at 5:30 o'clock in the morning when they left a week ago and made the journey to Monmouth, Ill., in a day and a half. At the end of the first day they stopped at the little town of Farmington, Ia., over night and got into Keokuk the next morning in time for breakfast.

They had a great trip, and saw hundreds of other autoists on pleasure bent. At the stopping places they saw cars from nearly every state in the Union.

The crops in Illinois, Mr. Kemp says, are in grave danger unless rain falls soon, as there has been no rain in the section of Illinois he visited for a month. The corn looked better the nearer home he came. He says the Missouri corn is in better condition than any he saw while away.

WAS STUNT NIGHT AT NORMAL.

Program Consisted of Variety of Stunts and Was Witnessed by a Large Crowd.

Stunt night at the Normal was given Friday night in the Normal gymnasium and a large and enthusiastic crowd witnessed the different members of the school pull off a number of the stunts. The first number on the program was a drill by twenty young men and women under the direction of Captain Swinehart. Then came a quartet composed of the leading operatic stars. This was under the direction of the new singing master, Librarian Wells.

The school bell rang and the modern school took up. It was the kindergarten class. Before the scholars arrived, everything was thoroughly disenfected. Each arrival was inspected by Dr. Adams and his assistant. The stories of the Three Bears and Three Little Pigs were dramatized. Of course, the mother of one of the children came and talked over the possibilities of her son.

A volley ball game between the Fats and Leans of the faculty came next. The ladies of the faculty were scheduled to appear in a stunt but they were probably too bashful, anyway they did not appear. Gymnasium stunts were substituted and the greatest acrobats in the world appeared. Prof. Vandersloot, Prof. Moore, Prof. Eek and Prof. Faris. A basket ball game was played between the leading suffragettes, refereed by Mr. Skelton, representing Mrs. Emiline Pankhurst.

The last number on the program was given by the Schuber tquartet under the direction of Prof. Landon. Music was also given by the Normal orchestra.

Visiting in Kansas City.

Miss Helen Porter of the Maryville Conservatory went to Kansas City Saturday morning to visit her cousin, Rev. W. E. Rafferty, who is a member of the faculty of the Kansas City Theological seminary.

A $3000 INCREASE

POLK TOWNSHIP WILL HAVE MORE REVENUE THIS YEAR.

SCHOOLS GET ONE HALF

State Gets $7,218; County, $15,173; Roads, $9,494; Township Expense, $3,798, and Poorhouse, $1,523.

The tax book for Polk township containing 1913 taxes, to be collected this year, has just been finished by County Clerk Demott. The grand total tax to be collected is $74,588.81, and the assessment of the township is $3,793,394. The tax this year is an increase of over $3,000 over last year, as it was $71,132.18, and the assessment $3,646,667.

The real estate in Maryville is assessed at $1,132,885. As Wilcox and Bedison are also in the township, the real estate at Wilcox is assessed at $2,080, and at Bedison at $2,470. The real estate outside of Maryville, Wilcox and Bedison comprised 75,039.42 acres and the valuation is placed at $1,642,440. The taxes to be derived from the Maryville real estate is $28,098.83; from the township outside of the cities, $24,755.03; from Wilcox, $28.03, and from Bedison, $36.68.

Of the personal property assessment, Maryville pays $11,846.07, the four Maryville banks $4,620.40, and the township outside of Maryville, $5,203.04, making a total of $21,669.51 personal tax. Added to the real estate tax of $52,919.30, the total tax is $74,588.81.

The following is the personal property and also the valuation:

Horses—Maryville has 323, valuation $12,850; country, 2,153, at a valuation of $91,260.

Asses and jennets—Country 17, at a valuation of $675.

Mules—Maryville 21, at a valuation of $1,015; country 302, at a valuation of $15,055.

Sheep—Country 1,178 at a valuation of $1,180.

Hogs—Maryville 66, at a valuation of $220; country 6,958, at a valuation of $20,305.

Of money, notes and bonds Maryville is assessed at $467,104, and the country at $86,760, making a total for the township of $553,865.

All other personal property for Maryville is assessed at $129,295, and for the country at $62,095.

The total valuation of the personal property of the city is $663,174, and that of the country in Polk outside of Maryville is $350,345, making a total valuation of $1,013,519 for Polk township on the personal property.

The taxes to be collected by the township will be divided as follows:

To school building fund, $9,755.85.

To school teachers and incidentals, $27,623.65.

To state, $7,218.47.

To county, $15,173.73.

To roads for township, $9,494.71.

To township for current expenses, $3,798.41.

To poorhouse, $1,523.99.

Would Can the Peaches.

Jones was showing his wife and her friend, Mrs. Brown, around the new offices. He left them in the waiting room for a few minutes, while he answered a telephone call, and the conversation between the two women drifted to household matters.

"And have you put up much fruit this year, Mrs. Jones?" asked Mrs. Brown.

"Not very much so far," answered Mrs. Jones, "but," as her gaze wandered across the room, where several pretty stenographers were working, "I intend to can a few peaches very soon."—Judge.

Married by Judge Conn.

P. Marion Burroughs and Lula V. Mills, both of Maryville, were married Friday afternoon by Probate Judge W. H. Conn. As the bride was only 17 and being under age, the probate court appointed George W. THE "MISSOURI BUTTON."

State Federation of Commercial Clubs Raising Money by Selling Buttons.

The Federation of Missouri Commercial Clubs is organized for the purpose of stopping the outgo of Missouri farmers and Misouri capital into the other states, and for the purpose of bringing into Missouri 300,000 people from the other states and to let the outside world know the real facts about Misouri and her resources, and to encourage factories and industries to come into the state; and the federation is trying to bring about a closer co-operation between business men and farmers for their mutual benefit.

It will take money to accomplish these things.

The federation is trying to raise a hundred thousand dollars by the sale of a hundred thousand "Missouri buttons." Every button has on it the seal of the state and this slogan, "I am for Missouri." It is believed that there are a hundred thousand men and women who will be proud to stand up for their native state.

Mr. C. A. Stewart, first assistant of the general secretary, Mr. A. N. Lindsey of Clinton, Mo., will be in town in a few days with some of the "Missouri buttons," and will be personally introduced by the secretary of our local commercial club. We hope that every business man he approaches will take a button and come out to the meeting. Mr. Stewart is preparing the way for a visit by the general secretary and of the flying squadron of the federation, made up of a number of the best men in the state, who will visit our town later and talk to us at a luncheon of business men and farmers on how we can best co-operate together to build up our city and country and to bring into it the industries and factories that we may desire.

Burial will take place at Oak Hill cemetery and the burial services will be in charge of the Masons. The pallbearers will be Dr. C. D. Koch, H. P. Childress, Charles Childress, James B. Robinson, Alex Gray and F. C. Conrad.

Mr. and Mrs. William Davenport and daughter of St. Petersburg, Fla., arrived Friday night to attend the services of Mr. Holt. Mrs. Davenport being a daughter of the deceased.

A BIG UNION MEETING.

One to Be Held in Graham on Sunday, August 3, of All Churches of the Township.

A big union meeting of all the churches in Hughes township is to be held in Graham on Sunday, August 3. Arrangements are being made now for the meeting.

If the weather is permitting an open air meeting will be held. If the weather is bad, the Methodist church in Graham will be used. Every church in Hughes township is being invited to attend the meeting in a body and to bring their dinners along, which will be served at the noon hour.

The speaker at the meeting which will be held at 11 o'clock that morning will be Dr. Bushnell of the State Anti-Saloon League. Dr. Bushnell will talk on temperance.

Base Ball Game at Hopkins.

The Sunday school ball teams of Pickering and Hopkins played in Hopkins Friday afternoon. The game was not finished because train time came too soon, but when the playing ceased the score stood 9 to 11 in favor of Hopkins. The Pickering team was accompanied by twenty-one girls from their town, who proved to be splendid base ball fans.

Miss Frances Hartman will leave Sunday morning for Oelrichs, S. D., after a short visit in this city with her parents, Mr. and Mrs. G. A. Hartman. Miss Hartman is teaching school near that place and has also a claim of 160 acres nearby.

Public Reception in Our New Store
Saturday, July 26

We wish to announce that our new fixtures and fountain have been installed and that most of our new stock of Drugs and Sundries are now on the shelves, and that we will have a public opening and reception on

Saturday, July 26
from 3 p. m. to 10 p. m.

There will be music and flowers to make the occasion an enjoyable one, and we will appreciate it very much to have you present.

We feel that in opening our Maryville store we took upon ourselves the duty of serving the people of Maryville and vicinity, faithfully, honestly and satisfactorily.

The world loves appearance; nations take pride in their capitols, and in their armies and navies; cities in their parks, boulevards and public buildings; individuals take pride in their personal appearance.

Our pride and conscientious aim shall be to give to the citizens of Maryville the one most complete up-to-date, clean and neat drug store and soda fountain to be found in all Northwest Missouri. Two registered pharmacists.

Rid Your Children of Worms.

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. CROSS FIRE FOR MULHALL

Manufacturers and Unions May Question Lobbyist.

COMMITTEE CHANGES POSITION

Attorneys for Organizations He Accuses Will Be Allowed to Ask About Details of His Charges—Tells of Interview Granted by Taft.

Washington, July 26.—Chairman Overman announced that lawyers for the National Association of Manufacturers and of the American Federation of Labor would be allowed to cross-examine Mulhall. This was a reversal of a previously announced program.

Mulhall will go before the house lobby committee early next week and it is expected that there he will be subjected to a rigid examination as to the charges contained in his correspondence that members of the house were his close associates in political campaign work and in efforts to head off labor legislation.

Mulhall said he went to Massachusetts in August, 1910, and wrote General Manager Bird of the manufacturers of conferences with Senator Lodge and Charles E. Hatfield, chairman of the state committee.

"Senator Lodge pays us all kinds of compliments for the work we are doing, and I know we will have his aid more actively during the next campaign," wrote Mulhall. In other letters that month Mulhall wrote, "Through our efforts we have beaten the Hon. T. D. Nichols of the Tenth Pennsylvania and we also have beaten the notorious George A. Pearre of injunction fame in the Sixth Maryland."

On Aug. 30 Mulhall whote President Taft, asking for an interview for Bird and himself. Mulhall swore he received a reply from C. D. Norton, the president's secretary, arranging the interview for Sept. 12, at Beverly.

BURLESON TO ISSUE ORDER

Cut in Parcel Rates Will Be Made Despite Criticism of Senate.

Washington, July 26.—Despite senatorial criticism of the proposed reduction in parcel post rates and the increase in the size of the packages, Postmaster General Burleson announced he would issue the final orders at once, putting the changes in effect Aug. 15. The announcement came after the wisdom of making the changes had been subjected to a searching review before the senate postoffice committee in the presence of the postmaster general.

Chairman Clark of the interstate commerce commission, explaining why the commission had sanctioned the proposed changes, said he believed the postmaster general had ample power under the law to make the changes.

"I am convinced that the postoffice department ought to, can and will extend the parcel post until it will carry all packages up to 100 pounds," he added.

WILL NOT WITHDRAW TROOPS

Michigan Governor Intends to Keep Militia in Copper Country.

Calumet, Mich., July 26.—Reports that Governor W. N. Ferris would come to Houghton to help arrange a settlement of the strike of 15,000 copper mine employees in the northern peninsula brought out an official statement from the mine managers that they would welcome the governor's presence.

Any plans for arbitration under the direction of the governor were soon dispelled, however, by the announcement that Mr. Ferris had no present intentions of coming to the copper country or of withdrawing the militia which is protecting the mines against any further outbreak of the strikers.

Disorders occured spasmodically in the outlying districts of the mining country, but in no case did the strikers manifest the spirit which appeared in the attack upon Calumet and Hecla properties.

Require Health Certificate to Marry

Madison, Wis., July 26.—The Wisconsin legislature passed a bill requiring a certificate of health from both parties to a nuptial agreement as a preliminary to the granting of a marriage license. Examinations by physicians are required. Both houses also passed a bill for the sterilization of the feeble minded, epileptic and criminal insane in state and county institutions.

First Rental Is Paid to Panama.

Washington, July 26.—The first payment of $250,000 to Panama for the annual rental of the canal zone was made. The payments are in addition to $10,000,000 paid in cash to Panama nine years ago. The money was paid over to a representative of William Nelson Cromwell of New York, financial agent for the Panama government.

Servia and Greece Reject Proposal.

Bucharest, Rumania, July 26.—Greece and Servia definitely rejected the Rumanian proposal for the conclusion of a provisional armistice during the conference at Nish. The two governments say they can consent to the cessation of hostilities only after the signature of an armistice and peace preliminaries.

CONFIDENCE IS FULLY SUSTAINED

Despite Midsummer Pause, Volume of Trade Continues Large.

New York, July 26.—Dun's Review says: There is the customary midsummer pause in mercantile and industrial activity; yet the volume of transactions continue large and confidence is fully sustained. Conservatism remains general in most channels, but this is tempered by a degree of optimism that reflects favorable sentiment as to the future. That the trend of business is still forward is evidenced by current statistics of trade movements. The aggregate of foreign commerce for the latest week reported was smaller than for the same period of the two years immediately preceding, the decline being due entirely to a falling off in merchandise exports.

Failure for the week number 208.

ASSERTS COUNTRY ON STILTS

Williams Says This Makes Dealing With Tariff Hard.

Washington, July 26.—Senator Williams of Mississippi said in the tariff debate that the Democrats had found it difficult to deal logically with the tariff because the industrial condition had been placed on high stilts by years of Republican protection. This prompted Senator Cummins to ask why the Democrats had not cut off a little of both stilted legs.

Senator Williams replied that they were "afraid it would kill the poor thing" to walk straight all at once.

Al Benedict Easy for Carl Morris.

Joplin, Mo., July 26.—Carl Morris, the Oklahoma heavyweight, knocked out Al Benedict of Oklahoma in the fifth round of a scheduled fifteen-round fight here. Morris was not forced to exert himself, Benedict being at his mercy at all times and clinching whenever possible.

CHINESE REBELS SUE FOR PEACE

Telegraph Yuan Shi Kai Proposing Basis for Negotiations.

LOSE IN SHANGHAI ACTION.

Attacks on Arsenal Completely Fail Despite Reinforcements—Northerners in Possession of Sochowfu—Governor of Hunan Is Neutral.

Shanghai, July 26.—The revolutionary cause here appears to be waning. Despite the large number of rebel reinforcements, the attacks on the arsenal by the southerners failed completely and Dr. Wu Ting Fang, former Chinese minister to the United States, General Wen Tsung Yao and other prominent rebels, after a conference, telegraphed President Yuan Shi Kai proposing a basis for peace negotiations.

It now is known that Sochowfu, in the province of Kiangsu, is in possession of the northerners. The military governor of the province of Hunan, one of the chief tea producing sections of the republic, has proclaimed the neutrality of his district, and the military governor of Chekiang province is suppressing firmly all propaganda against Yuan Shi Kai.

Despite the negotiations made for an armistice, fighting was resumed. The southerners, reinforced by 500 Cantonese and 1,000 Hunanese, again attacked the arsenal, but were defeated with considerable losses. The forces at the mouth of the river now have joined the loyalists.

WOULD RECOGNIZE HUERTA

Ambassador Wilson Says Mediation Is Impractical.

New York, July 26.—Pausing here for a half day on his hurried Mexico City-to-Washington trip in response to a summons from President Wilson, Henry Lane Wilson, American ambassador to Mexico, announced his emphatic opposition to several plans under consideration by the state department for bringing about peace in the troubled Mexican republic.

Supplementing statements he made earlier in the day disapproving the suggestions of American mediation or the appointment of a tripartite commission, Mr. Wilson gave his reasons why he considered the plan for a tripartite commission not a feasible one.

"If we are to consider such a plan, we may as well abandon the Monroe doctrine entirely," he said. "The Monroe doctrine pledges the United States to take care of the interests of American governments without the aid of any foreign country. Consequently under the Monroe doctrine we cannot attempt to settle Mexico's affairs through the services of such a body as the proposed tripartite commission, since it involves calling in outside governments to help."

While not saying specifically that he favored recognition of the Huerta government by the United States, Ambassador Wilson indicated that it was his view that recognition should be given.

STILL AFTER M'REYNOLDS

Representative Kahn Renews Fight Upon Attorney General.

Washington, July 26.—Representative Kahn introduced another resolution relating to the Diggs-Caminetti white slave cases in San Francisco. It would direct Attorney General McReynolds to give the house "a copy of his telegram dated May 16, 1913 (more than a month prior to the date when Mr. Wilson, secretary of labor, telephoned to the attorney general in regard to a postponement of the case, directing United States Attorney McNab to take no further affirmative action against Diggs and Caminetti under white slave indictments until further directed by the attorney general and also copies of the memorandum placed in the files of the office of the attorney general in connection or relating to the sending of such a telegram."

The resolution was referred to the judiciary committee.

Southern Half of China Is in Revolt.

Canton, July 26.—Seven of the southern Chinese provinces, with a population twice that of the United States, have come to an agreement for joint action against the Peking government. In an eighth province, Kwangsi, the troops, under General Lung, sympathize with the movement. A force of 10,000 irregular troops, chiefly composed of Hakka hillmen, left here by way of the North river to fight the northern army.

Bulgaria Finds a Friend.

London, July 26.—The important development in the Balkan situation was a demand presented by the Austrian representatives at Athens and Belgrade for an immediate cessation of hostilities, together with a warning that Austria would not allow Bulgaria to be too greatly humiliated.

Moose to Probe Death of Initiates.

Cincinnati, July 26.—The deaths of Donald Kenney and Christopher Gustin during an initiation into the Loyal Order of Moose in Birmingham, Ala., probably will result in formal action being taken against the lodge at the meeting of the supreme council in Cincinnati next week.

The New Sectional Fire Pot

The Acme of Perfection

The WIER Fire Pot has been entirely reconstructed; the air space back of it having been reduced one-half enlarging the diameter of the pot and increasing the amount of grate surface. This also greatly intensifies the gas burning feature which in the past has proven such a wonderful success in the WEIR.

We call particular attention to the self-cleaning feature. The ribs on the back of the pot forming the divisions of the channels or air passages are now pitched downward so that any dust or ashes which might accumulate thereon will be deflected into the ash pit. The weight of the pot has been increased considerably, all of which will assist in prolonging the life of it immeasurably. It is still built on perpendicular lines, but is now corrugated on both sides, allowing of a more equal expansion and contraction and of a grate surface exceptionally large in proportion to the bed of fuel. There is, therefore, the least liability of fuel packing, and freedom from the forming of clinkers. It is made sectional, any part being easily replaced through the feed door, and does not require taking down of the entire furnace and casing to repair it, as is the case with all other furnaces.

SING SING PRISON FIRE.

Convicts Worked Like Trojans to Save Shops, Ignoring Chance to Flee.

© by American Press Association.

Many of the prisoners in Sing Sing (N. Y.) earned commendation of the officials by their heroic work when the shops were ablaze, and it is likely that most of them will be rewarded with special privileges, while pardons or commutation of sentence will be asked for several. Ample opportunity was given for escape but not one tried to get away. The convicts at work as volunteer firemen at the burning of the mat factory are shown above.

DESPERATE CONVICTS MOVED FROM PRISON

Second Termers Are Taken From Sing Sing to Auburn.

Ossining, N. Y., July 26.—Warden Clancy has rid Sing Sing prison of the second termers, the dregs of the New York city criminal class, the remainder of them being transferred to Auburn today, and expects to have no more trouble keeping order. To them and a few of their more desperate sympathizers the warden attributes the mutinies that broke out at Sing Sing this week, the two fires in the prison shops and the attempt to murder a negro convict, whom the mutineers regarded as a traitor.

MONEY BILL ROW CONTINUES

House Committee Democrats Become "Discourteous" Discussing It.

Washington, July 26.—In another stormy session the Democratic members of the house banking and currency committee found themselves unable even to agree to disagree on the administration currency bill. They adjourned until Monday, when, after President Wilson has had a talk with Representative Ragsdale of South Carolina, who presented to the committee the so called insurgent amendments to the bill, the struggle to reach some sort of an agreement will be resumed.

Making a Rustic Chair of a Stump.

A serviceable and exceedingly rustic substitute for the usual lawn chair may be made from a stump. In making the chair the tree was cut down in such a way as to leave a stump standing about three feet above the ground. The seat was formed by making a second cut a foot below the top and extending about two-thirds of the way through the stump and chipping out the wood above it. It was then an easy matter to chip out the remaining portion to the form of a curved chair back.—Popular Mechanics.

SPENDING BIG SUM.

Government to Pay Out $75,000 For Cholera Prevention, and Pettis County Chosen.

The federal government is to spend several thousand dollars per year in hog cholera prevention and control work in Pettis county, Missouri. The funds available for this work come through an appropriation of $75,000 made to the bureau of animal industry of the U. S. department of agriculture for demonstrating the best methods of preventing and eradicating hog cholera.

Some time ago the Missouri state board of agriculture learned that the agricultural authorities at Washington had in view the selection of one county in each of three leading hog producing states where work looking to the eradication of hog cholera was to be done. It was also learned that Missouri was not one of the states conditionally chosen. Then the Missouri board got busy. Telegrams urging Missouri's claims were sent to Secretary David A. Houston, Speaker Champ Clark and Senators Reed and Stone. Through the board, Governor Major was advised of the situation and rendered valuable aid. The result of the campaign and of later conferences, one of which was held in Kansas City, June 17, when representatives of the Missouri board met with Dr. M. Dorsett of the bureau of animal industry of the United States department of agriculture and the agricultural college, both institutions expressing a willingness to co-operate with the department at Washington. Choice of a county in which to work was left to the federal authorities, but Secretary T. C. Wilson of the Missouri board and Dr. S. Sheldon, state veterinarian, were asked to report as to the advantages of certain counties. It was suggested by the government representative that the county selected should contain no large city, nor border on a river where drainage might make control work difficult; that the county be one having a good number of hogs and one where the loss from cholera has been representative rather than excessively heavy or very light. Another provision was that the county chosen should be one having a county farm adviser. With choice narrowed to a few counties, Pettis was chosen.

The beginning of this work in Pettis county, with Dr. Bernard W. Murphy as inspector in charge, may be looked upon as one of the most important steps in hog cholera control and prevention ever taken in the state, and the entire state will be benefited. It is hoped to demonstrate the value of a county campaign which includes not only prompt use of serum wherever cholera appears, but also an effective quarantine, and widespread cooperation and education.

The educational work includes the organization of a corps of volunteer agents, at least one for each township. These volunteers will be assembled and instructed, and through them farmers' clubs will be organized. The purpose of the work and the ultimate object sought will be fully explained.

Restrictive regulations will include the following: Prevention of shipment from diseased herds, quarantining and placarding of infected farms, permitting introduction of new animals from without experimental area only under quarantine restrictions, restrictions at fairs and shows, cleaning up of stock yards and prevention of reinfection, disinfecting of corn, prohibiting driving of hogs on public highways, compulsory report of outbreaks or "simultaneous" treatment within discretion of federal officers, prohibiting "simultaneous" inoculation or use of virus in any form except under state or federal authority, compulsory destruction of dead hogs.

Preventive inoculation measures will include much important work. All cholera outbreaks will be reported, volunteer township agents assisting. The serum alone or simultaneous (either that in judgment of federal officers is necessary) will be used on infected farms, also on adjoining farms. Premises where disease makes its appearance are to be cleaned and disinfected, and carcasses of hogs disposed of. Owners will also be instructed regarding methods of prevention. All results are to be reported. Records showing total number of hogs in area will be made. In addition, records of losses during preceding years will also be compiled.

In carrying out this work the federal government will spend several thousand dollars. Dr. Murphy, representing the government, will have two or more assistants, and will devote his entire time to Pettis county. From the headquarters, which will be maintained in Sedalia, practically any farm in the county where an outbreak of cholera might occur can be reached within an hour or two, when serum will be administered, other preventative measures taken, and quarantine established.

At a meeting held in Sedalia, July 24, and attended by Dr. W. B. Niles and Dr. Bernard W. Murphy of the bureau of animal industry, United States department of agriculture; Dr. J. W. Connaway of the Missouri college of agriculture, T. C. Wilson, secretary of the Missouri state board of agriculture, and Dr. S. Sheldon, state veterinarian, plans for the work were perfected. The board of agriculture will issue and enforce such restrictive regulations as may be deemed necessary after conference with federal officials. The bureau of animal industry will undertake to furnish all serum required for the work, but in case of shortage the Missouri college of agriculture will supply the deficiency so far as possible. The college of agriculture will work with the county agent, assist in the educational campaign and in the work generally.

If this cholera prevention and control work, seemingly so intelligently undertaken, proves successful in Pettis county other counties will want to follow.

SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles.

Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint.

I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did."

Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardui is a strength-building tonic medicine for women.

It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times.

Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs.

Its half century of success is due to merit. It has done good to thousands.

Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it.

ARE STILL SAFE

MRS. CURTIS ALEXANDER WRITES FROM SAN LUIS POTOSI.

USED A CROOKED STICK

Eight Peons Were Also Used in Operation of Corn Planting—$1 a Pound for Butter.

Postmaster and Mrs. S. R. Beech have just received twe letters from their daughter, Mrs. Curtis Alexander of San Luis Potosi, Mexico, one dated June 28 and the other July 6, assuring them of the safety of herself and family in the renewed troubles in the revolution in that country.

Virden Alexander, the son of Mr. and Mrs. Alexander, went to San Salvador in June and is many miles away from the revolution. Though but a little past 21 years of age he is an expert mining assayist. He was employed at Tampico when the revolutionists began their work there, and he left for Mexico City, where he found 250 mining assayers ready to leave for the United States. Wishing to continue in his work, believing there would not be a very good chance for him to return in company with 250 other men in his work, and all wanting employment, he accepted an offer at Mexico City from the manager of a mining company at La Union, San Salvador, at $260 per month and board. He left at once, sailing from Salina Cruz on an eight-day water trip to the southwestern coast of San Salvador. The mine where he is employed is forty-five miles up in the mountains from La Union, the landing place.

At San Luis Potosi, where Mr. and Mrs. Alexander are stationed, the German company that owns the mine of which he is a member as well as assayer, has used every precaution for the safety of those in charge. An immense stockade surrounds the property that contains several hundred acres, and everyone within is trained and ready for any emergency the present upheaval might bring.

The manager of the company and his two sisters left at the beginning of the summer for a visit to home folks in Germany. They asked Mrs. Alexander to oversee some things for them, the planting of an acre of corn, which she says she did "with eight peons and a crooked stick," also their cows and chickens, which she also does with the aid of another "battalion or so" of peons. She is about the busiest woman in Mexico, she says, and enjoys the novelty of the business, for she always did just love to boss folks. She gets $1 a pound for butter and a price accordingly for eggs. She is too busy to be afraid of the revolution, and so far has had nothing to really make her afraid. A few extracts from her letter reads:

San Luis Potosi, Mexico, June 28, 1913.—We are all well and doing finely. A little town just a little way from here was taken by the rebels the other evening. They killed the president of the town, robbed the houses and then set fire to them. It is certainly a big wonder they don't come and try to take us. We get to expecting it every few nights. We are well prepared for them, though, and it may be they know it.

* * *

The other day the consul had posted up a notice that the United States would pay any American's fare from Vera Cruz to Galveston or New York who was not able to get out of the country. Dr. Wiley, the pure food man, also chartered a boat and advertised to take any Americans out of the country, and the Red Cross society has already taken one boat load and will take another.

Everyone is wondering, "Are the blue jackets coming?" It is the only acknowledged way to ever settle this country. I think all good Mexicans are praying for it to happen. Everyone in business is going broke and all are mighty tired of these revolutions, one on top of the other.

* * *

The other day at Lampasas, a town a little way from Laredo, a funny thing happened, and it is a very fine illustration of the war here. One of the big generals was there, Telez his name is, and he heard that the rebels were coming, so he went out north to meet them. Some friends of the rebels told them the federals had gone north, so the rebels came into the town and got all comfortably fixed for the night when they were told that the federals were returning, and where the rebels could find and take their cannons. Then some one went to tell the federals that the rebels were in the plaza, and also informed them where the rebels' cannons were. The rebels went one way, the federals the other, each took the others' cannon, returned to their camps, not a man killed, not a shot fired.

Then the rebels were notified that the federals were very strong. They got scared and started quickly to the south. Then the federals were notified that the rebels were very strong. They didn't stop for anything, but arrived by ones and twos, or as they could, as if they had been shot out of a cannon in Laredo.

After both outfits had gone the people of Lampases went out and gathered all the food, clothes, guns and things that had been left. That, I guess, was a battle!

Don't worry about us. We are perfectly safe, and have all the fruit, vegetables, and everything we need.

* * *

July 6, 1913. Everything here is getting worse all the time, in the way of government, and no one thinks Huerta will last very long. The road from here to Tampico is blown up by the rebels. They dumped three train loads of soldiers over a precipice and the road has not been fixed since. But don't worry about us. We are perfectly safe. Should a time come when we are not safe we will stay in the house or walk out, or get out some way. Everything is quiet here and we are not afraid.

RETURNED FROM AUTO TRIP.

F. C. Conrad and His Family Had Great Time and Traveled Over 3,000 Miles in Car.

After a seven weeks auto tour of Wyoming and Colorado, Mr. and Mrs. F. C. Conrad and Miss Nelle Conrad drove into Maryville at 3 o'clock Friday afternoon. They made the last stage of the return trip from twelve miles the other side of Omaha, starting between seven and eight o'clock.

The complete trip covered about 3,000 miles, Mr. Conrad said this morning. On the way out, they struck mud at Fremont, Nebraska, and had bad roads all the way to North Platte. It rained every day on the trip out, but the return journey was made under ideal conditions. They stayed three weeks in Denver, where they met many old acquaintances, and then went to Colorado Springs for twelve days. They took side trips nearly every day to the different places of interest near there.

Mr. Conrad also said that they had no trouble with the car. Even the trips up the canyons caused no tire trouble. The only difficulty whatever was with the boiling of the water in the radiator. Fresh water had to be put into it every mile, but as the creek was always at hand this caused no great inconvenience.

The return trip from Colorado Springs took only five days. They left that place last Sunday, and stopped one day at Pine Bluff. It took $13 worth of gasoline to run the car from Colorado Springs to Maryville.

SUES FOR MAINTENANCE.

Lucinda Henderson of this City Brings Suit Against James Henderson.

A suit was filed Saturday morning in Circuit Clerk Rathbun's office by Mytton & Parkinson of St. Joseph for Lucinda Henderson of this city against James Henderson. The petition states that they were married in Illinois over forty years ago and shortly after that time moved to Missouri in Atchison county. About December, 1909, the petition says that the defendant abandoned the plaintiff without just cause.

The suit prays for support and maintenance for the plaintiff as she is unable to make her living as she is 60 years old. The defendant, according to the petition, earns good wages and also draws a pension of $20 a month.

FRESH AIR PARTY

EIGHT KANSAS CITY CHILDREN GUESTS OF EPWORTH LEAGUE.

FOUR OUT IN COUNTRY

Party Equally Divided Between Town and Country Homes—A Chance For Practical Charity.

Eight of Kansas City's little folk have by this time had one full day of play on the pleasant lawns and beautiful farms of Maryville and vicinity. These children are the little waifs brought here from the Swope settlement by the Epworth League of the First Methodist church. After a week of delay they arrived at 8:30 Friday night, and were immediately taken to the homes where they will spend their ten days' vacation.

The four boys and four girls who make up this "fresh air" party range from 5 to 12 years of age. They are equally divided between town and country. In town there are two girls at the home of Mrs. Mary Hook, one at the home of L. L. Maier and one boy at the home of Walter Mutz. Three boys and one girl are spending their vacation in the country. The girl is at the W. L. Ruddle farm, one boy at the J. V. Embree farm and the other two boys and the farm of William Hosher.

The idea of bringing a number of the city's poor children here for a week or two of play in the fresh air and sunshine was suggested to the members of the Epworth League of the First Methodist church here at the district convention earlier in the summer. This league decided at once to carry out the suggestion as the best way in which they could use their money. The announcement, with a call for homes, was made in the church bulletin Sunday, July 13. The next Wednesday Miss Izora Mutz wrote to Miss Mary Andrews, superintendent of the Swope settlement in Kansas City, asking her to send the children to Maryville the following Monday, July 21. Miss Andrews was out of the city, and the letters were forwarded to her, causing the delay in the arrival of the children here.

This is the first fresh air campaign ever inaugurated in Maryville, and the Epworth League should be commended for it. It is too good a cause to let die with one trial, and now that it is started it should be continued year after year. If the people of Maryville could have seen how neat and clean and happy the little folk were when they stepped from the train last night there would have been many homes opened to them. Will not more people take an interest in this movement and make it a larger one next year?

THE PIRATES WON PENNANT.

The Normal Base Ball League Schedule Was Completed Friday—the Cubs Second.

The base ball league of the Normal finished its schedule Friday and the Priates team finished first, having won 8 games and lost 4. "Shylock" Wilson was the captain of this team. The Cubs came second, having won 7 and lost 5, with Simmons as captain. The Giants under Chris, were next with 5 won and 6 lost. The Athletics under Ham brought up the rear end of the procession, having won 3 and lost 9. The league games were very interesting and were enjoyed by the Normal students.

Next week a series of three games will be played. The pick of the Pirates and the pick of the Athletics will play the pick of the Cubs and Giants. Games will be played on Monday, Wednesday and Friday afternoons. The pick of all the teams will play the Guilford Stars at Barnard on the first day of the Barnard picnic on August 7.

TO TAKE VACATION.

Rev. S. D. Harkness and Family to Leave Next Week—Rev. Cox Will Return From Vacation Then.

Rev. S. D. Harkness will take his vacation during August. He will leave some time next week with Mrs. Harkness and the children for Kimball, S. D., the home of Mrs. Harkness' mother, Mrs. J. B. Long. When they return, the latter part of August, Mrs. Long will come to make her home with them here.

Rev. Gilbert S. Cox and his family will return from their vacation trip next week. Rev. Cox will have charge of the union services of the First M. E. and the Presbyterian churches during the month of August.

BACK FROM AUTO TRIP.

S. H. Kemp and His Party Returned Friday From a Week's Trip in Car to Northern Illinois.

Mr. and Mrs. S. H. Kemp, Harold Kemp, Mr. and Mrs. G. R. Epperson, and Mrs. Patrick of Pacific Grove, Cal., arrived in Maryville Friday evening at 5:30 o'clock from a week's trip in Mr Kemp's Overland to various points in Northern Illinois. Mr. Epperson, who is 78 years old and in quite feeble health, came in as fresh from the journey as did his young grandson, Harold Kemp.

On going Mr Kemp took the Waubaunsie trail from Conway, Ia., which is the one on the auto trail from New York to San Francisco, and on returning came by the Blue Grass road between Burlington and Omaha.

They started at 5:30 o'clock in the morning when they left a week ago and made the journey to Monmouth, Ill., in a day and a half. At the end of the first day they stopped at the little town of Farmington, Ia., over night and got into Keokuk the next morning in time for breakfast.

They had a great trip, and saw hundreds of other autoists on pleasure bent. At the stopping places they saw cars from nearly every state in the Union.

The crops in Illinois, Mr. Kemp says, are in grave danger unless rain falls soon, as there has been no rain in the section of Illinois he visited for a month. The corn looked better the nearer home he came. He says the Missouri corn is in better condition than any he saw while away.

WAS STUNT NIGHT AT NORMAL.

Program Consisted of Variety of Stunts and Was Witnessed by a Large Crowd.

Stunt night at the Normal was given Friday night in the Normal gymnasium and a large and enthusiastic crowd witnessed the different members of the school pull off a number of the stunts. The first number on the program was a drill by twenty young men and women under the direction of Captain Swinehart. Then came a quartet composed of the leading operatic stars. This was under the direction of the new singing master, Librarian Wells.

The school bell rang and the modern school took up. It was the kindergarten class. Before the scholars arrived, everything was thoroughly disenfected. Each arrival was inspected by Dr. Adams and his assistant. The stories of the Three Bears and Three Little Pigs were dramatized. Of course, the mother of one of the children came and talked over the possibilities of her son.

A volley ball game between the Fats and Leans of the faculty came next. The ladies of the faculty were scheduled to appear in a stunt but they were probably too bashful, anyway they did not appear. Gymnasium stunts were substituted and the greatest acrobats in the world appeared. Prof. Vanderslooi, Prof. Moore, Prof. Eck and Prof. Faris. A basket ball game was played between the leading suffragettes, refereed by Mr. Skelton, representing Mrs. Emiline Pankhurst.

The last number on the program was given by the Schuber tquartet under the direction of Prof. Landon. Music was also given by the Normal orchestra.

Visiting in Kansas City.

Miss Helen Porter of the Maryville Conservatory went to Kansas City Saturday morning to visit her cousin, Rev. W. E. Rafferty, who is a member of the faculty of the Kansas City Theological seminary.

A $3000 INCREASE

POLK TOWNSHIP WILL HAVE MORE REVENUE THIS YEAR.

SCHOOLS GET ONE HALF

State Gets $7,218; County, $15,173; Roads, $9,494; Township Expense, $3,798, and Poorhouse, $1,523.

The tax book for Polk township containing 1913 taxes, to be collected this year, has just been finished by County Clerk Demott. The grand total tax to be collected is $74,588.81, and the assessment of the township is $3,793,394. The tax this year is an increase of over $3,000 over last year, as it was $71,132.18, and the assessment $3,646,667.

The real estate in Maryville is assessed at $1,132,885. As Wilcox and Bedison are also in the township, the real estate at Wilcox is assessed at $2,080, and at Bedison at $2,470. The real estate outside of Maryville, Wilcox and Bedison comprised 75,039.42 acres and the valuation is placed at $1,642,440. The taxes to be derived from the Maryville real estate is $28,098.83; from the township outside of the cities, $24,755.03; from Wilcox, $28.03, and from Bedison, $36.68.

Of the personal property assessment Maryville pays $11,846.07, the four Maryville banks $4,620.40, and the township outside of Maryville $5,203.04, making a total of $21,669.51 personal tax. Added to the real estate tax of $52,919.30, the total tax is $74,588.81.

The following is the personal property and also the valuation:

Horses—Maryville has 323, valuation $12,850; country, 2,153, at a valuation of $91,260.

Asses and jennets—Country 17, at a valuation of $675.

Mules—Maryville 21, at a valuation of $1,015; country 302, at a valuation of $15,055.

Cattle—Maryville 259, at a valuation of $3,790; country 6,089, at a valuation of $73,025.

Sheep—Country 1,178 at a valuation of $1,180.

Hogs—Maryville 66, at a valuation of $220; country 6,958, at a valuation of $20,305.

Of money, notes and bonds Maryville is assessed at $467,104, and the country at $86,760, making a total for the township of $553,865.

All other personal property for Maryville is assessed at $129,295, and for the country at $62,095.

The total valuation of the personal property of the city is $663,174, and that of the country in Polk outside of Maryville is $350,345, making a total valuation of $1,013,519 for Polk township on the personal property.

The taxes to be collected by the township will be divided as follows:

To school building fund, $9,755.85.
To school teachers and incidentals, $27,623.65.
To state, $7,218.47.
To county, $15,173.73.
To roads for township, $9,494.71.
To township for current expenses, $3,798.41.
To poorhouse, $1,523.99.

Would Can the Peaches.

Jones was showing his wife and her friend, Mrs. Brown, around the new offices. He left them in the waiting room for a few minutes, while he answered a telephone call, and the conversation between the two women drifted to household matters.

"And have you put up much fruit this year, Mrs. Jones?" asked Mrs. Brown.

"Not very much so far," answered Mrs. Jones, "but," as her gaze wandered across the room, where several pretty stenographers were working, "I intend to can a few peaches very soon."—Judge.

Married by Judge Coun.

P. Marion Burroughs and Lula V. Mills, both of Maryville, were married Friday afternoon by Probate Judge W. H. Conn. As the bride was only 17 and being under age, the probate court appointed George W. Demott as her guardian, as it was necessary to get the consent of the guardian before the license and marriage could be performed. Such consent was given. The bride is an orphan.

THE "MISSOURI BUTTON."

State Federation of Commercial Clubs Raising Money by Selling Buttons.

The Federation of Missouri Commercial Clubs is organized for the purpose of stopping the outgo of Missouri farmers and Misouri capital into the other states, and for the purpose of bringing into Missouri 300,000 people from the other states and to let the outside world know the real facts about Misouri and her resources, and to encourage factories and industries to come into the state; and the federation is trying to bring about a closer co-operation between business men and farmers for their mutual benefit.

It will take money to accomplish these things.

The federation is trying to raise a hundred thousand dollars by the sale of a hundred thousand "Missouri buttons." Every button has on it the seal of the state and this slogan, "I am for Missouri." It is believed that there are a hundred thousand men and women who will be proud to stand up for their native state.

Mr. C. A. Stewart, first assistant of the general secretary, Mr. A. N. Lindsey of Clinton, Mo., will be in town in a few days with some of the "Missouri buttons," and will be personally introduced by the secretary of our local commercial club. We hope that every business man he approaches will take a button and come out to the meeting. Mr. Stewart is preparing the way for a visit by the general secretary and of the flying squadron of the federation, made up of a number of the best men in the state, who will visit our town later and talk to us at a luncheon of business men and farmers on how we can best co-operate together to build up our city and country and to bring into it the industries and factories that we may desire.

HOLT FUNERAL SUNDAY.

Body Will Lie in State From 10 to 2 o'Clock—Services at Buchanan Street Church.

The funeral services for Logan Holt will be held Sunday afternoon at 2:30 o'clock at the Buchanan Street Methodist church, and will be conducted by the pastor of the church, Rev. J. D. Randolph. Mr. Holt died after a few days' illness in Ft. Collins, Col., on Wednesday morning, and his body arrived here Friday. Burial will take place at Oak Hill cemetery and the burial services will be in charge of the Masons. The pallbearers will be Dr. C. D. Koch, H. P. Childress, Charles Childress, James B. Robinson, Alex Gray and F. C. Conrad.

CROSS FIRE FOR MULHALL

Manufacturers and Unions May Question Lobbyist.

COMMITTEE CHANGES POSITION

Attorneys for Organizations He Accuses Will Be Allowed to Ask About Details of His Charges—Tells of Interview Granted by Taft.

Washington, July 26.—Chairman Overman announced that lawyers for the National Association of Manufacturers and of the American Federation of Labor would be allowed to cross-examine Mulhall. This was a reversal of a previously announced program.

Mulhall will go before the house lobby committee early next week and it is expected that there he will be subjected to a rigid examination as to the charges contained in his correspondence that members of the house were his close associates in political campaign work and in efforts to head off labor legislation.

Mulhall said he went to Massachusetts in August, 1910, and wrote General Manager Bird of the manufacturers of conferences with Senator Lodge and Charles E. Hatfield, chairman of the state committee.

"Senator Lodge pays us all kinds of compliments for the work we are doing, and I know we will have his aid more actively during the next campaign," wrote Mulhall. In other letters that month Mulhall wrote, "Through our efforts we have beaten the Hon. T. D. Nichols of the Tenth Pennsylvania and we also have beaten the notorious George A. Pearre of injunction fame in the Sixth Maryland."

On Aug. 30 Mulhall whote President Taft, asking for an interview for Bird and himself. Mulhall swore he received a reply from C. D. Norton, the president's secretary, arranging the interview for Sept. 12, at Beverly.

BURLESON TO ISSUE ORDER

Cut in Parcel Rates Will Be Made Despite Criticism of Senate.

Washington, July 26.—Despite senatorial criticism of the proposed reduction in parcel post rates and the increase in the size of the packages, Postmaster General Burleson announced he would issue the final orders at once, putting the changes in effect Aug. 15. The announcement came after the wisdom of making the changes had been subjected to a searching review before the senate postoffice committee in the presence of the postmaster general.

Chairman Clark of the interstate commerce commission, explaining why the commission had sanctioned the proposed changes, said he believed the postmaster general had ample power under the law to make the changes.

"I am convinced that the postoffice department ought to, can and will extend the parcel post until it will carry all packages up to 100 pounds," he added.

WILL NOT WITHDRAW TROOPS

Michigan Governor Intends to Keep Militia in Copper Country.

Calumet, Mich., July 26.—Reports that Governor W. N. Ferris would come to Houghton to help arrange a settlement of the strike of 15,000 copper mine employees in the northern peninsula brought out an official statement from the mine managers that they would welcome the governor's presence.

Any plans for arbitration under the direction of the governor were soon dispelled, however, by the announcement that Mr. Ferris had no present intentions of coming to the copper country or of withdrawing the militia which is protecting the mines against any further outbreak of the strikers.

Disorders occured spasmodically in the outlying districts of the mining country, but in no case did the strikers manifest the spirit which appeared in the attack upon Calumet and Hecla properties.

Require Health Certificate to Marry

Madison, Wis., July 26.—The Wisconsin legislature passed a bill requiring a certificate of health from both parties to a nuptial agreement as a preliminary to the granting of a marriage license. Examinations by physicians are required. Both houses also passed a bill for the sterilization of the feeble minded, epileptic and criminal insane in state and county institutions.

First Rental Is Paid to Panama.

Washington, July 26.—The first payment of $250,000 to Panama for the annual rental of the canal zone was made. The payments are in addition to $10,000,000 paid in cash to Panama nine years ago. The money was paid over to a representative of William Nelson Cromwell of New York, financial agent for the Panama government.

Servia and Greece Reject Proposal.

Bucharest, Rumania, July 26.—Greece and Servia definitely rejected the Rumanian proposal for the conclusion of a provisional armistice during the conference at Nish. The two governments say they can consent to the cessation of hostilities only after the signature of an armistice and peace preliminaries.

CONFIDENCE IS FULLY SUSTAINED

Despite Midsummer Pause, Volume of Trade Continues Large.

New York, July 26.—Dun's Review says: There is the customary mid summer pause in mercantile and industrial activity; yet the volume of transactions continue large and confidence is fully sustained. Conservatism remains general in most channels, but this is tempered by a degree of optimism that reflects favorable sentiment as to the future. That the trend of business is still forward is evidenced by current statistics of trade movements. The aggregate of foreign commerce for the latest week reported was smaller than for the same period of the two years immediately preceding, the decline being due entirely to a falling off in merchandise exports.

Failure for the week number 208.

ASSERTS COUNTRY ON STILTS

Williams Says This Makes Dealing With Tariff Hard.

Washington, July 26.—Senator Williams of Mississippi said in the tariff debate that the Democrats had found it difficult to deal logically with the tariff because the industrial condition had been placed on high stilts by years of Republican protection. This prompted Senator Cummins to ask why the Democrats had not cut off a little of both stilted legs.

Senator Williams replied that they were "afraid it would kill the poor thing" to walk straight all at once.

Al Benedict Easy for Carl Morris.

Joplin, Mo., July 26.—Carl Morris, the Oklahoma heavyweight, knocked out Al Benedict of Oklahoma in the fifth round of a scheduled fifteen-round fight here. Morris was not forced to exert himself, Benedict being at his mercy at all times and clinching whenever possible.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CHINESE REBELS SUE FOR PEACE

Telegraph Yuan Shi Kai Proposing Basis for Negotiations.

LOSE IN SHANGHAI ACTION.

Attacks on Arsenal Completely Fail Despite Reinforcements—Northerners in Possession of Sochowfu—Governor of Hunan Is Neutral.

Shanghai, July 26.—The revolutionary cause here appears to be waning. Despite the large number of rebel reinforcements, the attacks on the arsenal by the southerners failed completely and Dr. Wu Ting Fang, former Chinese minister to the United States, General Wen Tsung Yao and other prominent rebels, after a conference, telegraphed President Yuan Shi Kai proposing a basis for peace negotiations.

It now is known that Sochowfu, in the province of Kiangsu, is in possession of the northerners. The military governor of the province of Hunan, one of the chief tea producing sections of the republic, has proclaimed the neutrality of his district, and the military governor of Chekiang province is suppressing firmly all propaganda against Yuan Shi Kai.

Despite the negotiations made for an armistice, fighting was resumed. The southerners, reinforced by 500 Cantonese and 1,000 Hunanese, again attacked the arsenal, but were defeated with considerable losses. The forces at the mouth of the river now have joined the loyalists.

WOULD RECOGNIZE HUERTA

Ambassador Wilson Says Mediation Is Impractical.

New York, July 26.—Pausing here for a half day on his hurried Mexico City-to-Washington trip in response to a summons from President Wilson, Henry Lane Wilson, American ambassador to Mexico, announced his emphatic opposition to several plans under consideration by the state department for bringing about peace in the troubled Mexican republic.

Supplementing statements he made earlier in the day disapproving the suggestions of American mediation or the appointment of a tripartite commission, Mr. Wilson gave his reasons why he considered the plan for a tripartite commission not a feasible one.

"If we are to consider such a plan, we may as well abandon the Monroe doctrine entirely," he said. "The Monroe doctrine pledges the United States to take care of the interests of American governments without the aid of any foreign country. Consequently under the Monroe doctrine we cannot attempt to settle Mexico's affairs through the services of such a body as the proposed tripartite commission, since it involves calling in outside governments to help."

While not saying specifically that he favored recognition of the Huerta government by the United States, Ambassador Wilson indicated that it was his view that recognition should be given.

Representative Kahn Renews Fight Upon Attorney General.

Washington, July 26.—Representative Kahn introduced another resolution relating to the Diggs-Caminetti white slave cases in San Francisco. It would direct Attorney General McReynolds to give the house "a copy of his telegram dated May 16, 1913 (more than a month prior to the date when Mr. Wilson, secretary of labor, telephoned to the attorney general in regard to a postponement of the case, directing United States Attorney McNab to take no further affirmative action against Diggs and Caminetti under white slave indictments until further directed by the attorney general and also copies of the memorandum placed in the files of the office of the attorney general in connection or relating to the sending of such a telegram."

The resolution was referred to the judiciary committee.

Southern Half of China Is in Revolt.

Canton, July 26.—Seven of the southern Chinese provinces, with a population twice that of the United States, have come to an agreement for joint action against the Peking government. In an eighth province, Kwangsi, the troops, under General Lung, sympathize with the movement. A force of 10,000 irregular troops, chiefly composed of Hakka hillmen, left here by way of the North river to fight the northern army.

The New Sectional Fire Pot

The Acme of Perfection

The WIER Fire Pot has been entirely reconstructed; the air space back of it having been reduced one-half enlarging the diameter of the pot and increasing the amount of grate surface. This also greatly intensifies the gas burning feature which in the past has proven such a wonderful success in the WEIR.

We call particular attention to the self-cleaning feature. The ribs on the back of the pot forming the divisions of the channels or air passages are now pitched downward so that any dust or ashes which might accumulate thereon will be deflected into the ash pit. The weight of the pot has been increased considerably, all of which will assist in prolonging the life of it immeasurably. It is still built on perpendicular lines, but is now corrugated on both sides, allowing of a more equal expansion and contraction and of a grate surface exceptionally large in proportion to the bed of fuel. There is, therefore, the least liability of fuel packing, and freedom from the forming of clinkers. It is made sectional, any part being easily replaced through the feed door, and does not require taking down of the entire furnace and casing to repair it, as is the case with all other furnaces.

SING SING PRISON FIRE.

Convicts Worked Like Trojans to Save Shops, Ignoring Chance to Flee.

© by American Press Association.

Many of the prisoners in Sing Sing (N. Y.) earned commendation of the officials by their heroic work when the shops were ablaze, and it is likely that most of them will be rewarded with special privileges, while pardons or commutation of sentence will be asked for several. Ample opportunity was given for escape but not one tried to get away. The convicts at work as volunteer firemen at the burning of the mat factory are shown above.

DESPERATE CONVICTS MOVED FROM PRISON

Second Termers Are Taken From Sing Sing to Auburn.

Ossining, N. Y., July 26.—Warden Clancy has rid Sing Sing prison of the second termers, the dregs of the New York city criminal class, the remainder of them being transferred to Auburn today, and expects to have no more trouble keeping order. To them and a few of their more desperate sympathizers the warden attributes the mutinies that broke out at Sing Sing this week, the two fires in the prison shops and the attempt to murder a negro convict, whom the mutineers regarded as a traitor.

MONEY BILL ROW CONTINUES

House Committee Democrats Become "Discourteous" Discussing It.

Washington, July 26.—In another stormy session the Democratic members of the house banking and currency committee found themselves unable even to agree to disagree on the administration currency bill. They adjourned until Monday, when, after President Wilson has had a talk with Representative Ragsdale of South Carolina, who presented to the committee the so called insurgent amendments to the bill, the struggle to reach some sort of an agreement will be resumed.

Making a Rustic Chair of a Stump.

A serviceable and exceedingly rustic substitute for the usual lawn chair may be made from a stump. In making the chair the tree was cut down in such a way as to leave a stump standing about three feet above the ground. The seat was formed by making a second cut a foot below the top and extending about two-thirds of the way through the stump and chipping out the wood above it. It was then an easy matter to chip out the remaining portion to the form of a curved chair back.—Popular Mechanics.

SPENDING BIG SUM.

Government to Pay Out $75,000 For Cholera Prevention, and Pettis County Chosen.

The federal government is to spend several thousand dollars per year in hog cholera prevention and control work in Pettis county, Missouri. The funds available for this work come through an appropriation of $75,000 made to the bureau of animal industry of the U. S. department of agriculture for demonstrating the best methods of preventing and eradicating hog cholera.

Some time ago the Missouri state board of agriculture learned that the agricultural authorities at Washington had in view the selection of one county in each of three leading hog producing states where work looking to the eradication of hog cholera was to be done. It was also learned that Missouri was not one of the states conditionally chosen. Then the Missouri board got busy. Telegrams urging Missouri's claims were sent to Secretary David A. Houston, Speaker Champ Clark and Senators Reed and Stone. Through the board, Governor Major was advised of the situation and rendered valuable aid. The result of the campaign and of later conferences, one of which was held in Kansas City, June 17, when representatives of the Missouri board met with Dr. M. Dorsett of the bureau of animal industry of the United States department of agriculture and the agricultural college, both institutions expressing a willingness to co-operate with the department at Washington. Choice of a county in which to work was left to the federal authorities, but Secretary T. C. Wilson of the Missouri board and Dr. S. Sheldon, state veterinarian, were asked to report as to the advantages of certain counties. It was suggested by the government representative that the county selected should contain no large city, nor border on a river where drainage might make control work difficult; that the county be one having a good number of hogs and one where the loss from cholera has been representative rather than excessively heavy or very light. Another provision was that the county chosen should be one having a county farm adviser. With choice narrowed to a few counties, Pettis was chosen.

The beginning of this work in Pettis county, with Dr. Bernard W. Murphy as inspector in charge, may be looked upon as one of the most important steps in hog cholera control and prevention ever taken in the state, and the entire state will be benefited. It is hoped to demonstrate the value of a county campaign which includes not only prompt use of serum wherever cholera appears, but also an effective quarantine, and widespread co-operation and education.

The educational work includes the organization of a corps of volunteer agents, at least one for each township. These volunteers will be assembled and instructed, and through them farmers' clubs will be organized. The purpose of the work and the ultimate object sought will be fully explained.

Restrictive regulations will include the following: Prevention of shipment from diseased herds, quarantining and placarding of infected farms, permitting introduction of new animals from without experimental area only under quarantine restrictions, restrictions at fairs and shows, cleaning up of stock yards and prevention of reinfection, disinfecting of corn, prohibiting driving of hogs on public highways, compulsory report of outbreaks or "simultaneous" treatment within discretion of federal officers, prohibiting "simultaneous' inoculation or use of virus in any form except under state or federal authority, compulsory destruction of dead hogs.

Preventive inoculation measures will include much important work. All cholera outbreaks will be reported, volunteer township agents assisting. The serum alone or simultaneous (either that in judgment of federal officers is necessary) will be used on infected farms, also on adjoining farms. Premises where disease makes its appearance are to be cleaned and disinfected, and carcasses of hogs disposed of. Owners will also be instructed regarding methods of prevention. All results are to be reported. Records showing total number of hogs in area will be made. In addition, records of losses during preceding years will also be compiled.

In carrying out this work the federal government will spend several thousand dollars. Dr. Murphy, representing the government, will have two or more assistants, and will devote his entire time to Pettis county. From the headquarters, which will be maintained in Sedalia, practically any farm in the county where an outbreak of cholera might occur can be reached within an hour or two, when serum will be administered, other preventative measures taken, and quarantine established.

At a meeting held in Sedalia, July 24, and attended by Dr. W. B. Niles and Dr. Bernard W. Murphy of the bureau of animal industry, United States department of agriculture; Dr. J. W. Connaway of the Missouri college of agriculture, T. C. Wilson, secretary of the Missouri state board of agriculture, and Dr. S. Sheldon, state veterinarian, plans for the work were perfected. The board of agriculture will issue and enforce such restrictive regulations as may be deemed necessary after conference with federal officials. The bureau of animal industry will undertake to furnish all serum required for the work, but in case of shortage the Missouri college of agriculture will supply the deficiency so far as possible. The college of agriculture will work with the county agent, assist in the educational campaign and in the work generally.

If this cholera prevention and control work, seemingly so intelligently undertaken, proves successful in Pettis county other counties will want to follow.

SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles.

Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint.

I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did."

Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardui is a strength-building tonic medicine for women.

It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times.

Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs.

Its half century of success is due to merit. It has done good to thousands.

Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it.
